

NOV 22 1982

Mr. Chuck Epstein  
Jones and Laughlin Steel Corporation  
3001 Dickey Road  
East Chicago, IN 46312

Dear Mr. Epstein:

Re: Sludge Disposal, Gary Development  
Sanitary Landfill  
Lake County

Staff of the Division of Land Pollution Control is currently in litigation with the Gary Development Sanitary Landfill concerning the appeal of permit conditions for a recently issued operating permit renewal. We are interested in the liquid and sludges that are deposited at said landfill.

Would you please provide in writing the following information pertaining to your central treatment plant sludge, terminal treatment plant sludge, No. 6 stand oil (bottom sludge and oil), and coke tar decanter sludge:

1. Volume of each waste liquid or sludge which was shipped for land disposal on a monthly basis since January 1981.
2. Who transported said waste for disposal.
3. Identify the disposal site if it is other than the Gary Development Sanitary Landfill. Please identify any other liquids or sludges that you dispose of at the above landfill.

This information will help staff accurately determine the disposal activities at the Gary Development sanitary landfill. Your cooperation in this matter is appreciated. If you have any additional questions feel free to contact me at AC 317/633-0213.

Very truly yours,

*George Oliver*
